## Precision Saw Chain Sharpening System

**SHARPENS**  
**ON THE SAW, ON THE JOB,**  
**IN SECONDS™**

### Take the Next Leap in Saw Chain Technology

PowerSharp® is an easy-to-use, precision sharpening system that gives chain saw users the power to sharpen their chain in a matter of seconds with a simple-to-use attachment.

**Fast.** From dull to sharp in as little as 3 seconds.

**Easy.** Only three steps to faster, easier cutting.

**Portable.** Bar-mount sharpener is lightweight, durable, and highly visible.

**Precise.** Exact alignment between cutter and honing surface for perfect angles and knife-sharp edges.

**Tough.** PowerSharp® chain is as durable and hardworking as other OREGON® 3/8" pitch, low-profile chain.

Patent Pending

Patent-pending features make PowerSharp® a major advance over other sharpening methods - past or present

As the chain moves through the bar-mount sharpener, the unique top-sharpening cutters contact the stone.

The guidance drive link works together with the cutter, cutter depth gauge, and depth gauge tie strap to provide the stability required to create a precision cutting edge.

The diamond-coated dresser link resurfaces the stone, ensuring flat cutter to stone contact.

## Easy to Use

PowerSharp® is a system that includes the PowerSharp® chain, the PowerSharp® guide bar, and the PowerSharp® bar-mount sharpener. Together, they work to make sharpening simple and easy.

## Fast and Convenient

Arborists, farmers, and homeowners will all find the simplicity, portability, and speed of PowerSharp® indispensable. Whether the job is heavy limbing, storm clean-up, or trimming trees around the house, a sharp chain makes the work faster and easier.

### ATTACH

When the chain dulls from normal use, dirt contact, or rock strikes, simply attach the bar-mounted sharpener to the PowerSharp® guide bar. Twin guide holes in the tip of the bar make perfect alignment fool proof.

**HOMEOWNERS** will have the confidence to keep their chain in top condition.

### SHARPEN

Press the tip of the sharpener to a solid surface for 3-5 seconds.

**FARMERS AND RANCHERS** will find sharp chain is as close as the nearest toolbox.

### CUT

And it's back to the job, working faster with less effort.

**ARBORISTS AND LANDSCAPERS** can stay in the cut and on the job.

## Fits Most Popular Chain Saw Brands

	14" Stihl®	14" Craftsman®, Poulan®, Homelite® (and other models)	16" Stihl®	16" Craftsman®, Poulan®, Homelite® (and other models)	18" Craftsman®, Poulan®, Homelite® (and other models)
